FUCHS TUTORING at the

American Institutes for Research (AIR) is a suite of professional learning services designed to help teachers implement high-quality, effective tutoring and intervention programs in schools.

Join this interactive virtual training institute led by our expert AIR trainers to learn more about **Peer Assisted Learning Strategies (PALS) Math Grades K&1** and how to implement the programs with fidelity. Training consists of an overview of the PALS K&1 programs, research, and materials and addresses the basics of implementation.

Registered participants will have access to an **online community of experts and educators** to support implementation after the institute.

PALS Math is a classwide peer tutoring program that provides a classroom structure to differentiate instruction, so pairs of students work on a broad array of mathematics skills at the targeted grade level.
