Session goals and agenda

• Provide an overview of AIR’s evaluation goals and context from the Chicago Public Schools Community Schools Initiative (CSI)

• Share primary findings from current and past evaluations of CSI

• Practitioner focused discussion of how the evaluations have led to change and contributed to sustainability of the initiative
Chicago Public Schools
Community Schools Initiative
Chicago Public Schools Community School Initiative: An overview

- CPS CSI established in 2002
- Over 200 community schools
- Serving over 50,000 students
- One of the largest networks of Community Schools in the country
- Awarded the Coalition for Community Schools National Award in 2006
Core services at each CPS CSI school

• Academic supports for students

• Health and wellness access for students and families

• Social/emotional health services and referrals for students and families

• Social and cultural enrichment activities

• Adult education and family/community engagement programing
Evaluation questions

Implementation Evaluation

• How are schools implementing the community schools initiative with fidelity?

• What mechanisms appear to support high quality implementation of the CS initiative?

Impact Evaluation

• What impact does sustained participation in CSI programming have on a series of school-related outcomes compared to similar students not participating in programming?

• What impact does attendance at a higher-implementing CSI school have on a series of student related measures?
A mixed-methods research approach

Implementation Evaluation

- Interviews and focus groups with key stakeholders in the schools and communities of CSI schools including resource coordinators, school administrators, teachers and parents
- Continuous Quality Improvement Plan (CQIP) rubrics from individual schools
- Site level program quality observations (Youth Program Quality Assessment)

Impact Evaluation

- Rigorous quasi-experimental design using student-level outcome data, program participation data, and the Illinois 5Essentials youth survey
A look at CSI Implementation

Monitoring tools and core features of implementation in CPS CSI schools
Implementation evaluation

Goals
1. Identify the primary drivers of high quality implementation of the CPS CSI model
2. Identify successful strategies and potential challenges to implementation

Data used
1. Interviews with Resource Coordinators and school administrators from a sample of nineteen 2019 cohort schools
2. Interviews with Resource Coordinators and school administrators and focus groups with parents and day-time instructional staff at 13 higher implementing CSI schools
3. Continuous Quality Improvement self-assessment measures
Ensuring continuous quality improvement

**Organizational (School-Level)**

Self-Assessment Quality Improvement Rubric (CQIP)

- Staff recruitment and retention
- Advisory committee functioning
- Quality of the needs assessment

**Point-of-Service (Activity-Level)**

Youth Program Quality Assessment (YPQA)

- Interactions among students and staff
- Student engagement with activities
- Sequencing of activities

Data collection:
- CQIP assessment
- YPQA observations

Collaborative decision making for the coming year

Action plan development and implementation
1. Shared vision among stakeholders
2. Advisory Board with authentic decision making
3. Programming aligned to needs and interests
4. Programming is high quality
5. Programming is executed with intention and monitored for quality
6. Intentional involvement of stakeholders (communications)
7. Resources are sought and retained to benefit all stakeholders
8. Capacity to sustain and commitment to continuous improvement
**Element 1. A shared vision and commitment for the Community School (CS) exists among stakeholders.**

<table>
<thead>
<tr>
<th>Key Practices</th>
<th>4-Exemplary</th>
<th>3-Proficient</th>
<th>2-Emerging</th>
<th>1-Planning</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Element Area</strong></td>
<td>□ A vision for the CS has been developed.</td>
<td>□ A vision for the CS has been developed.</td>
<td>□ A vision for the CS has been developed.</td>
<td>□ Vision not developed or Vision is developed, but less than 3 stakeholder groups were involved in creation</td>
</tr>
<tr>
<td></td>
<td>□ A vision has been jointly created by at least one representative from each of the following stakeholder groups: (1) School staff (counselor, teacher, etc.); (2) community residents (other than a parent); (3) parents, (4) students, (5) Lead Partner Agency (or key community partner); and (6) other community partners.</td>
<td>□ At least 3 stakeholder groups involved in vision creation</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ Annually, the CS vision is reviewed among the stakeholders to ensure that it remains consistent with CS goals.</td>
<td>□ Vision reviewed annually</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ The vision informs planning for programs and services.</td>
<td>□ Vision informs planning</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Element 2. Stakeholders demonstrate commitment to the Community School (CS) model.**

<table>
<thead>
<tr>
<th>Key Practices</th>
<th>4-Exemplary</th>
<th>3-Proficient</th>
<th>2-Emerging</th>
<th>1-Planning</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Element Area</strong></td>
<td>□ CS leaders (e.g., RC, school, LPA or one key community partner) have regularly scheduled meetings to discuss and plan ways to strengthen and expand the reach of CS services and programs.</td>
<td>□ All 4 key practices are in place</td>
<td>□ 2 to 3 key practices are in place</td>
<td>□ CS leaders have not or scheduled a meeting to discuss ways to strengthen services and programs</td>
</tr>
<tr>
<td></td>
<td>□ The CS model is promoted throughout the school and community (e.g., announcements, updates, visible indicators of a CS).</td>
<td></td>
<td>□ At least 1 key practice in place</td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ As a whole, the CS model is considered to be a framework for school-wide improvement and change.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ The CS model is not jeopardized when leadership changes occur at the school or LPA (or a key community partner) level.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Element 3. Community School (CS) strategies are integrated within the Continuous Improvement Work Plan (CIWP).**

<table>
<thead>
<tr>
<th>Key Practices</th>
<th>4-Exemplary</th>
<th>3-Proficient</th>
<th>2-Emerging</th>
<th>1-Planning</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Element Area</strong></td>
<td>□ Almost all CS programs and services are connected to school improvement goals.</td>
<td>□ Most CS programs and services are connected to school improvement goals</td>
<td>□ Some CS programs and services are connected to school improvement goals</td>
<td>□ CS programs and services are not connected to school improvement goals</td>
</tr>
<tr>
<td></td>
<td>□ Almost all CS programs and services are documented in the school’s Continuous Improvement Work Plan (CIWP).</td>
<td>□ Some CS programs and services are documented in the school’s CIWP</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ The school’s CIWP explicitly lists the roles of key CS staff (e.g., instructors, RC) and stakeholders (e.g., students, community members, families, Advisory Committee members) in helping to achieve specific results.</td>
<td>□ All 4 key practices are in place</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>□ The Resource Coordinator participates in other school team meetings (e.g., instructional leadership team, grade level or departmental meetings).</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Chicago Public Schools
Community Schools Initiative

AMERICAN INSTITUTES FOR RESEARCH | AIR.ORG
Core structures of implementation

- Communication Structures
- Creating Community
- Shared Decision Making
- Monitoring
- Needs Assessment

Shared Vision
How vision connects to other elements

- Vision focus
- Importance of shared decision making
- Importance of communication structures
- Student outcomes

Choosing programs and partners

Ensuring attendance
## Common vision elements

<table>
<thead>
<tr>
<th>Vision Element</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Whole child support</td>
<td>Specific note of whole child support, expanding support to families and non-academic related growth</td>
</tr>
<tr>
<td>Academic or arts focus</td>
<td>Specific note of supporting academic growth or expanding arts related opportunities</td>
</tr>
<tr>
<td>Improved connection to school</td>
<td>Most common in high schools, often related to attendance or improving student trust in school staff</td>
</tr>
<tr>
<td>Welcoming safe environment</td>
<td>Specific mention of focus on safety and providing a welcoming environment</td>
</tr>
<tr>
<td>Community hub</td>
<td>Wanting to become a hub of activity for the community at large</td>
</tr>
<tr>
<td>High quality programing</td>
<td>Noted focus on providing high quality programing</td>
</tr>
<tr>
<td>Increased community connection</td>
<td>Differs from community hub, often oriented at improving relationships with the community</td>
</tr>
</tbody>
</table>
### Communication Structure

#### Stakeholders

- School administration
- Resource Coordinator
- Teachers
- Support staff
- Program partners
- Parents and family members
- Students
- Community members

#### Internal Communication

**Informal**
- Unscheduled conversations
- "Open door"
- Unscheduled drop in policy
- Unwritten or unrecorded

**Unplanned or less than monthly**

#### External Communication

**Formal**
- Regularly scheduled meetings
- Formal events focused on connection
- Written or documented outreach (letters home, Facebook posts etc.)
- Regular intentional verbal communication (robo calls)

**Regularly in the same time period (monthly, weekly etc)**
## Communication structures: A continuum

<table>
<thead>
<tr>
<th>Communication Structures</th>
<th>Less developed</th>
<th>Moderately developed</th>
<th>Well developed</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Less developed</strong></td>
<td>Largely unplanned/informal</td>
<td>Limited in scope or frequency</td>
<td>Usually only internal formal communication</td>
</tr>
<tr>
<td><strong>Moderately developed</strong></td>
<td>Some planned regular communication</td>
<td>Frequent intentional communication with few stakeholders</td>
<td>Some formal and informal communications</td>
</tr>
<tr>
<td><strong>Well developed</strong></td>
<td>Planned frequent communication internally and externally</td>
<td>Intentional engagement with all stakeholder groups</td>
<td>Formal and informal communication consistent</td>
</tr>
</tbody>
</table>
Shared Vision

Communication Structures

Creating Community

Shared Decision Making

Monitoring

Needs Assessment

Shared Decision Making
Primary decision-making models

- Shared among stakeholders:
  - School administration
  - Resource Coordinator
  - Advisory Board

- Administratively led:
  - School administration
  - Resource Coordinator

- Individually led:
  - School administrator or Resource Coordinator
Shared Vision → Communication Structures → Shared Decision Making = Creating Community
“It is constantly changing. Implementation every year looks slightly different based on the students we have in front of us, and their needs, and our staffing capacities, but also just because we're constantly trying to make it better, right? So some things work really well the first time around, and sometimes they do not, and we don't have a problem saying this this is not working. We need to stop, and kind of regroup, and shift what we're doing, so it's a forever cycle.”

~ School Principal
The Impact of CSI on Chicago Public School Students
Please respond to the Zoom poll:

What outcomes do you think community schools are particularly well-positioned to support, but are particularly challenging to measure (please check all that apply):
Impact Analysis Strategy

• Impact analyses by cohort
  – Define CSI dosage threshold
  – Propensity score matching
  – School-based outcomes

• Higher implementing sample
  – Whole school reform effort
  – Comparative interrupted time series
  – School-based outcomes

• Assess youth development outcomes
  – Youth survey
2015 Cohort Impact Analysis

What impact did participation in CSI programming for 120 hours or more during the 2016-17 and 2017-18 school years have on a series of school-related outcomes compared to similar students enrolled in CSI schools not participating in programming?
Participant and Comparison Groups

• Participant Group
  – 1,531 students (or approximately 64 students per average per school)

• Comparison Group
  – Students attending a CSI-funded school associated with the FY13 and FY15 cohorts (45 schools in total) that did not participate in CSI programming during the 2016-17 and 2017-18 school years
  – 6,532 students
## Outcomes Examined by Grade Level

</tbody>
</table>
Impacts on Academic Achievement

Positive and significant impact on annual GPA for all grade levels

- Students in the treatment group had an annual GPA that was 0.12 to 0.26 grade points higher than students in the comparison group.

Positive and significant impact on both reading and mathematics MAP scores

- For reading, the effect of participating in CSI programming for 120 hours or more was 0.11 standard deviations.
- For math, the effect was .20 standard deviations.
2 Attendance and Misconducts

Positive and significant impact on school-day attendance for both students in grades K-3 and 4-8

- Program impacts resulted in a 1.22 to .87 percentage point increase in days attended respectively for students in grades K-3 and 4-8

Participation associated with significantly fewer school-day misconducts for students in grades K-3 and 4-8

- Program impacts resulted in 0.34 to 0.95 fewer misconducts respectively for students in grades K-3 and 4-8
5Essential Survey Scales

Significant and positive effects were found in relation to the psychological sense of school membership scale for students in grades 4-8 and 9-12.

Significant and positive impact on scores associated with the academic engagement scale for students in grades 9-12.
Caveats

- Some schools more heavily represented in the treatment population
- Exclusion of non-matched students
- Some analyses likely underpowered to detect effects
- Impact of unobservable characteristics
Next Steps

Examine what strategies especially high performing schools are using to get and keep youth engaged in CSI programming over time.

Study schools overrepresented in the treatment sample in terms of what key experiences youth may be having while participating in programming that may be supporting the outcomes identified.
Youth Development Outcomes
Youth Development Experiences & Outcomes Measurement

Youth Motivation and Engagement Survey

- Opportunities for agency
- Positive interactions with activity leaders
- Positive interactions with other youth
- Skill-building experiences
- Self-reported impact
### Student Self-Reported Impact

</tbody>
</table>
Key Findings

A. Sustained enrollment in CSI programming across two school years positively associated with a variety of school-related outcomes

B. More immediate student-reported impacts associated with:
   - New friendships
   - Supporting a positive self-concept
   - Development of new interests
Community Schools Initiative in Chicago Public Schools: Reflections from the district

- What have been the biggest successes and challenges in supporting the implementation of CSI?

- What do you see as the key components or strategy that really makes the initiative successful in CPS?

- What do you feel is the contribution of having an ongoing evaluation of CSI in implementing CSI across the district?

- What are some of the challenges facing the district now, while continuing to implement CSI in the time of COVID-19?

- From the district perspective what are you most focused on next year as you adjust to the “new normal”?
