

Handout 2: Data Set Guiding Questions

Purpose: To be used with **Section IV, Step 2.**

- **Example**

Data Set 1:

- **Mentor Survey data**
- **Mentoring & Induction Matrix**

1. Guiding questions: What are the data telling us?

a. Mentor Survey data

- i. In which areas do mentors feel least confident?**
- ii. What are the top three areas in which mentors would like more training and support?**
- iii. Based on self-efficacy responses, what is an area in which mentors could use more training and support?**
- iv. What do the majority of mentors say they need more of in order to adequately meet the needs of teachers?**

b. Mentoring & Induction Matrix

- i. What mentor selection criteria and processes are schools using? Is there consistent use of selection processes that identify effective teachers with mentor-like qualities?**
- ii. How are schools using working conditions data to inform the mentoring and induction program?**
