**Summer Enrichment for Stephen Foster 67**

In October 2019, DSI conducted an ELL professional development, a strategic leadership retreat, and a summer professional development. The professional development, led by AIR’s Chief Education Officer, Dr. Kevin Price, prepared the principal and staff for the upcoming school year. The strategic leadership retreat centered on professional development, district improvement planning, and culture. The summer professional development centered on ELL best practices, including cultural competency and climate.

In the fall of 2019, the school conducted professional development that aligned with the instructional and cultural needs of the school’s students. The professional development featured a keynote speaker, workshops led by AIR staff, and collaborative planning sessions. The school also conducted a needs assessment and a Root Cause Analysis to identify areas for improvement.

The school’s professional development was designed to support the school’s ELL students and teachers. The school conducted a needs assessment to identify the specific needs of the school’s ELL students. The school also conducted a Root Cause Analysis to identify the root causes of the school’s ELL student’s academic and behavioral challenges.

A review of the school’s needs assessment and Root Cause Analysis identified a need for professional development to support the school’s ELL students and teachers. The school conducted a needs assessment and a Root Cause Analysis to identify the root causes of the school’s ELL student’s academic and behavioral challenges.
