For more information about public high school graduation rates and AIR's work on education data, visit www.air.org/resource/condition-education-reports.

* "Graduation rate" in this infographic refers to the adjusted cohort graduate rate (ACGR), the percentage of public high school freshmen who graduate with a regular diploma within four years of starting ninth grade. The Bureau of Indian Education and Puerto Rico were not included in the U.S. four-year ACGR estimate.

** The graduation rate gaps were calculated as the differences between two ACGRs, using graduation rates that were rounded to whole numbers. These gaps may vary slightly from those that would be calculated using unrounded rates.
