## Workforce Planning and Development Challenges

- The End of Men?
- The Triple Whammy of Geographic Disadvantage

## THE PLIGHT OF MEN

- Today, three times as many men of working age do not work at all compared to 1969.
- Selective male withdrawal from labor market-rising non-employment due largely to skills mismatches, disabilities \& incarceration.
- The percentage of prime-aged men receiving disability insurance doubled between 1970 (2.4\%) and 2009 (4.8\%).
- Since 1969 median wage of the American male has declined by almost $\$ 13,000$ after accounting for inflation.
- After peaking in 1977 , male college completion rates have barely changed over the past 35 years.

## Guiding Questions

1. What strategies are required to address the "triple whammy of geographic disadvantage" that many students of color face in their educational pursuits?
2. What are the likely implications for your school of current proposals to constrain immigration to the U.S.?
3. What strategies are required to redress the sex ratio imbalance in higher education?
4. What adjustments in your school's organizational culture will be required to successfully recruit and retain a more diverse staff and to serve a more diverse student clientele?
5. What organizational adjustments are necessary to accommodate four and soon-to-be five generations that will staff your school in the foreseeable future?
6. What plans are in place to successfully respond to the impending wave of retirements among your school's faculty and staff of boomers and pre-boomers?
7. Are specific changes in human resources policies, procedures, and practices necessary to address changing family, household, and living arrangements of your school's employees and students?
8. 

What are the curricular implications of the nation's growing diversity?
